(Abstract from WHO'S WHO IN ENGINEERING)

~~The New York Section of the American Institute of Electrical Engineers is proposing the nomination of Donald A. Quarles as President of the Institute for the administrative year 1952-1953.~~

Mr. Quarles became active in Institute affairs thru the New York Section eventually serving as Chairman in 1941. His activity has broadened to the national field in which he has served as a director of the Institute and on numerous committees including Management, Finance (as Chairman) and Planning and Coordination.

He is ~~now~~ ^{served} serving on the Management Committee, the Board of Trustees, United Engineering Trustees, Inc. and is Chairman of the Committee on Electronics of the Research and Development Board (National Military Establishment).

Along with his Institute activities, Mr. Quarles has maintained an active interest in Civic affairs having ~~recently~~ been President of the City Council and Mayor of Englewood, N. J.

~~The New York Section asks the support of its fellow sections and of each officer and member for the nomination of Don Quarles as the next A.I.E.E. president.~~
