My dear Mr. Wardlaw:—

In re Torchio discussion I would resubmit his discussion to him corrected for grammatical and rhetorical errors and if, after his attention has been called to them, he still stands pat then throw out his discussion.

In re Goddard + Miller I would not on any account admit to our printed records any personalities and if he has not the sense to see the justice of it he must put

Re papers.

x | up with the omission of his remarks,
At any rate I would hold it up
until Mr. Pope's return.

In re Library Report, I cannot go to N.Y. this week to see Carty. I am not familiar with all the details of the Library affairs but I do not understand that the acceptance of the report by the Institute body can carry with it the granting of the appropriation asked for. This appropriation must be granted by the Board. All ^{annual} appropriations for regular committees are made at the October meeting of the Board. The publication of the report can do no harm as I see it. Still Weaver might interpret it otherwise.

Very truly

Samuel Sheldon
