

May 21st, 1908.

Dr. Samuel Sheldon,
Chairman, Standards Committee,
Brooklyn, New York.

Dear Sir:

We attach hereto the printed copy of a resolution passed at a Technical Conference of the Faculty and Student Officers, United States Army Signal School held March 25, 1908, endorsing the movement directed toward the adoption of the word KELVIN as the commercial unit of electrical energy at present expressed by the term KILLOWATT HOUR. This printed copy was received here on April 10th, and by action of the Board of Directors at the meeting held May 19th was referred to the Standards Committee.

Very truly yours,

Assistant Secretary.

Enclosure.
