

YALE UNIVERSITY
NEW HAVEN · CONNECTICUT

SECRETARY'S OFFICE

January 16, 1934.

Mr. Henline, National Secretary,
American Institute of Electrical Engineers,
33 West 39th Street,
New York, N.Y.

My dear Mr. Henline:

In connection with the biographical statement concerning Calvert Townley, Ph.B. Yale 1886, which we are preparing for publication in the Yale Obituary Record, there is certain information in regard to his engineering activities that we have been unable to secure. It has been suggested that you may be able to help us, and I am therefore taking the liberty of addressing this inquiry to you.

Our questions are noted on the accompanying sheet. May I ask you to supply as much of the information requested as you can and return the sheet in the enclosed envelope? We shall be most grateful for any assistance that you may be able to give.

Very truly yours,

Escher M. Rogers

Assistant to the Executive Secretary

Miss Esther M. Rogers
Assistant to the Executive Secretary
Yale University, Woodbridge Hall
Yale Station, New Haven, Conn.

Dear Miss Rogers:

On the attached sheet, which accompanied your letter of January 16, we have supplied the information in our possession.

For accurate information covering Questions 2 and 6, we suggest that you apply to: Secretary, American Engineering Council, 744 Jackson Place, N.W., Washington, D.C. As you will note from the sheet, the Federated American Engineering Societies was the original name of the American Engineering Council.

The Society for Electrical Development is no longer in existence. Possibly you may be able to obtain information regarding Mr. Townley's activities in the organization from its former secretary, Mr. J. Smieton, Jr., whose address is 2490 Tiebout Avenue, New York, N.Y.

Very truly yours

National Secretary
