I was born in New York
City, July 4th 1861.
I graduated at the
School of Mines, Columbia
College in 1882. The
following year I formed
with Charles G. Curtis
the firm of Curtis &
Crocke and for five
years we were engaged
in patent and expert work
almost entirely electrical.
During the last two years
of that time we invented

and developed the "C. & C."
Electric Motor and established
the Company of that name.
Upon Mr. Curtis' withdrawal
from business on account
of illness, I formed a
year ago with Schuyler
S. Wheeler the firm of
Crocke & Wheeler, Electrical
Engineers and have been
engaged in that business
since then.
