Dear Mr. Metcalfe,

You said you liked & have
short "fillers". I enclose one which I would
be glad to have published as soon as possible,
especially before the Feb. meeting at which
a paper attacking me (West of Pittsfield)
is to be read, tho he may withdraw it.

You will see that it attacks
no one personally & contains nothing
objectionable. I have just submitted it
to an expert who could not point out
anything wrong or absurd in it. I am
sure your committee will not
object to it.

I would be glad to be able to read
proof. Also to have a few extra copies
tho it is not worth while printing these
separately. A few cut from cut
numbers, or a few **EXAMINED AND APPROVED**
proofs, would
be sufficient.

EXAMINED AND APPROVED
FOR FILING

have not yet rec'd my copy of your
Nov. issue, altho Dr. Rinder got his last
week & told me my discussion was in
that issue. I understand that the author
gets 50 reprints of the discussion. If not,
please let me know before you distribute
the type.

Yours truly
Carl Hering

November 9, 1923

Dr. Carl Hering,
1317 Spruce St.,
Philadelphia, Pa.

Dear Dr. Hering:

I have your favor of November 6th, with the enclosed short article on "Induction in a Circuit Having No Resistance". I shall be glad to make use of the latter in the JOURNAL, if it passes the scrutiny of the technical committee.

In regard to the West paper about which you speak, I have definite information that this paper is not being considered at all for the February meeting. If your short contribution is found available, we will arrange to furnish you with proofs before publication.

Your understanding in regard to the reprints of discussion is incorrect. We have never been authoris-

ed to furnish reprints of discussion, except at the usual charge for reprints. If you need only a very limited number, I should be glad to have a few proofs pulled from the pages for you, but if you want as many as 50 copies I shall be obliged to make a charge of about four or five dollars. In any case, the type will be standing for probably two or three months yet.

Very truly yours,

E D I T O R
