CARL HERING
CONSULTING ELECTRICAL ENGINEER

PHILADELPHIA, PA. December 12, 1919.

Mr. F. L. Hutchinson, Secy.,
33 West 39th Street,
New York City.

Dear Mr. Hutchinson:-

Last year I was on a sub-committee of the Standards Committee, on the subject of storage batteries, Prof. Pender, Chairman.

Will you please inform me whether my term expired with the new coming administration or whether my appointment continues, and if so, how long. Also who, in that case, the present chairman is, and whether that committee is still active.

I understand that the only other committee of which I am now a member, is the Edison Medal Committee, in which my term expires in August 1920. My chairmanship of the Committee on Electrochemistry has apparently expired, and I am no longer on that committee.

If not too much trouble, I would be obliged if you would let me know if I am still on any other committee not mentioned in the list in the October proceedings which I have looked over.

I am straightening out my list of committees, of which I have quite a long list.

                                        Yours very truly,

CH:CR.   Carl Hering

Dr. Carl Hering,
210 South Thirteenth St.,
Philadelphia, Pa.

Dear Dr. Hering:

Referring to your letter of yesterday, according to our records the only committee of which you are at present a member is the Edison Medal Committee.

The subcommittees of the Standards Committee for the present year have not yet been appointed. The Committee held a meeting Thursday of this week and authorized the chairmen to complete the list of sub-committee appointments. We assume that we will receive this list within a few days.

Please note that at the meeting of the Board of Directors yesterday the award of the Edison Medal was reported to the Board and the Board directed the Secretary to announce the award in the Institute Journal and to the technical press as soon as Mr. Emmet has been notified and has accepted. I notified Mr. Emmet by letter last night.

Very truly yours,

Secretary.
