Dear Sirs:

Please find enclosed application for the formation of a Section of the IEEE in our country Uruguay. We would like you to take into consideration following points:

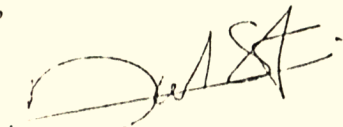

- Membership in Uruguay has practically doubled in the seven months we are actively working towards the formation of a local Section.
- The formation of a Section, with the increase in benefits to the Members, will undoubtedly enhance the development of the Membership, as is recognized in the Bylaws, 404.2. That will be specially true because we will be able to contact the Electrical Companies for support, (official and private) with the good name of the IEEE behind us.

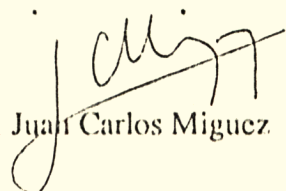

• According to our interpretation of the Bylaws, "members other than students" as mentioned in 404.2 include Associate Members, and, of course, the Pending Members. The definition of "members" without capital in 101.1 includes all categories.

• We have sent the Curricula of our "Universidad de la Republica - Facultad de Ingenieria" and Field Services answered us via Telex that even the title "Ingeniero Industrial" our university used to give to people studying any Engineering other than Civil, was OK for Membership. But many new members still get PM and are asked for three references. Most of them obliged and will get their Member Grade very soon. So their signatures will be valid. There are also some signatures whose Numbers are unknown to us; we are sure their applications will be in the meantime processed.

Many thanks again for your support and kind attention

Sincerely yours,

Daniel Slomovitz

Juan Carlos Miguez

IEEE Headquarters

U.S.A.

Gentlemen:

I am writing to you on behalf of a group of people who are interested in forming an IEEE chapter in Uruguay. From a letter I received about a year ago from your institution, I learnt that there are about 18 members already in Uruguay.

I would like to get a current copy of a constitution of IEEE and membership forms (as many as necessary to complete a chapter).

We see of great use forming an independent chapter in Uruguay to benefit from such an organization as IEEE. At the same time, we would like to be somehow independent from Argentina, that is we would like to treat directly with you for different reasons such as communications, customs, etc.

The people who are interested in forming this chapter represent engineers and technicians of practically all areas in electrical engineering in Uruguay. Therefore, we intend to form a knowledge center for different disciplines such as communications, controls, computers, etc, by means of a central source of information, seminars, lectures, etc.

To conclude let me state that there is much interest in forming this chapter as soon as possible, therefore, I will ask you for a prompt answer.

Very truly yours,

Dear Mr. Slomovitz:

Congratulations! On behalf of IEEE's General Manager, Mr. Eric Herz, it is a pleasure to inform you that the requirements of the IEEE Bylaws have been met, and the establishment of an Instrumentation & Measurement and Power Engineering Joint Chapter in the Uruguay Section has been approved. The effective establishment date of the Chapter is September 25, 1989.

At this time we are recording you as the IM-09/PE-31 Joint Chapter Chairman. When the next election has been held, please use the enclosed Chapter Officer Reporting form to report the officers to IEEE. If we can assist you in any way in the planning of the Chapter activities please let us know.

We extend our best wishes for the successful operation of this Chapter.
