IEEE VIC. Sub Section  
P.O. Box 81  
GLENHUNTLY. VIC. 3163.

### SECTION STATUS FOR VICTORIA - PETITION

FOLLOWING SUPPORT FROM THE AUSTRALIAN SECTION COMMITTEE FOR THE CHANGE, YOUR SUB-SECTION COMMITTEE HAS VOTED TO SEEK THE SUPPORT OF ALL MEMBERS IN VICTORIA FOR A PETITION TO UPGRADE VICTORIA TO FULL IEEE SECTION STATUS. A MESSAGE FROM YOUR CHAIRMAN FOLLOWS.

*Dear Member,*

*As you are aware, for the last two years the IEEE has been represented in Victoria by the Victorian Sub-Section. The Sub-Section is, in turn, attached to the Australian Section located in Sydney. The Australian Section committee has the responsibility for the financial operations of the Sub-Section which includes the preparation and distribution of CIRCUI and any other information mailed to members. This arrangement has meant that there have been some unavoidable delays in communications between the Sub-Section Committee and members in Victoria.*

*The Australian Section and the Victorian Sub-Section committees both agree that it would be highly desirable to form a Victorian Section. The formation of Sections in other Australian States is also being considered by the Australian Section and the Region 10 Director, Professor Harry Green.*

*Under Section arrangements the Victorian membership would enjoy (1) An increased IEEE rebate funding of approximately 20% per annum, and (2) An improved responsiveness in services and communications at the local level.*

*The IEEE rules require a Section to be formed by a petition of not fewer than 50 members, other than students and associates. These members must have mailing addresses within the territorial limits proposed in the petition, in this case within the State of Victoria. There are currently over 500 IEEE members in Victoria.*

*For this reason please find attached a form for you to sign this petition. If you agree would you fill out the form and forward to the above address by August 1, 1983.*

*My committee and I commend this action to you.*

*Yours sincerely,*

B.G. Love,  
CHAIRMAN VIC. SUB-SECTION.

Date: 26 July 1983

Dear Emily,

Victorian Sub-Section IEEE Australian Section

The response to our proposal to form a Victorian Sub-Section of IEEE Australian Section has been very good and I am attaching our Petition for the formation of the Sub-Section which I trust you will pass on for approval by the Regional Director and Regional Activities Board.

The form has been endorsed with the names of the petitioners and attached is a photostat copy of replies received to our invitation to the Victorian Members to form this Sub-Section. I trust that this procedure will be satisfactory to the Regional Activities Board and that we will not have to go back to each of the members and ask him to sign the Petition Form personally.

Only a selection of the replies has been photostated but we have included in the Petition the names of all the respondents who indicated their wish to form the Sub-Section.

So that we may inform our Members of progress, it would be appreciated if you would acknowledge receipt of this Petition.

Yours sincerely,

Dennis G. Bradshaw

Dear Mr Bradshaw

Thank you for your May letter, concerning the possibility of forming a Victorian Subsection of the IEEE Australian Section.

Personally, I would support a petition to New York to form this Subsection, because the large distances between major cities in Australia preclude the operation of an effective single unit and a Victorian unit is probably logical with the size of membership in this State.

However, I regret that my time is so taken up with management and other problems in the SECV that I could not devote a worthwhile amount of time as a Committee member. I believe that a great deal of time and effort will be required to establish and maintain a viable Victorian Subsection, and that it would be wrong to be an office bearer unless one could devote adequate time to IEEE business.

Yours sincerely,

Dear Sir,

In reply to your circular of May 1975.

Please be advised that I will certainly support a petition to New York to form a Victorian Subsection of IEEE Australian Section, but unfortunately time would not permit me to serve on the Committee, if nominated, or prepare and present a paper, as I travel interstate and overseas frequently.

I would most certainly support the formation of a Victorian Subsection of the IEEE Aust., Section.

If the necessary petition, when prepared, is either forwarded to me at the above address ; or alternatively I could possibly sign it on one of my frequent visits to N.S.W. then I would be only too pleased to support the move. <P

I would also be willing to serve on the Committee if required. One must draw to your attention however, that apart from my function as a Company Director and Computer Technician, my experience in this field is virtually non-existent.

Dear Mr. Bradshaw,

I was interested in your recent letter regarding the formation of a Victorian Subsection of the Australian Section of IEEE. I would be delighted to sign a petition to New York to support this Subsection and possibly serve on the Committee if nominated.

I was quite active in IEEE some years ago but have not become involved in the affairs of the Australian Section. I do think, however, there would be enough interest in Melbourne for the formation of a Subsection and would be delighted to aid in this matter if it would help.

# PETITION TO FORM AN IEEE SECTION/SUBSECTION

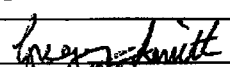

Date: 30 April 2008

We, the undersigned, active members of IEEE, Inc., hereby petition for approval to form an IEEE Subsection to be known as the IEEE Tasmanian Subsection. If approved, we agree to abide by the IEEE Constitution, Bylaws and published interpretations of policy.

The proposed territorial limits of this Section/Subsection are defined as follows:

The territories of the Australian State of Tasmania.

**Rationale:** The proposed Subsection presently lies within the IEEE Victorian Section. The State of Tasmania is an island state separated from mainland Australia by 200km of sea, making regular travel to functions, talks and meetings of the IEEE Victorian Section expensive and impractical for members based in Tasmania. An active Tasmanian Subsection of the IEEE would encourage interaction between members based in Tasmania and make membership of the IEEE more attractive to local engineers.
