James M. Henderson
Chief, Mountain States Office
Antitrust Division, Department of Justice
437 First National Bank Building
Denver, Colorado

Attention: Ewing C. Sadler,
Special Attorney

Dear Mr. Henderson:

Mr. Layng advises in accordance with your letter of February 23, the principal questions to be asked Mr. Constan, are as to operations through the Simson and St. Gotthard tunnels. This should include any information he has regarding the amount of traffic handled through these tunnels, and the location of freight yards at the north and south ends.

In folding up the information on Swiss Railways, we need particularly, information as to large freightyards, their location and capacities, anywhere in Switzerland. If Mr. Constan has information regarding the locomotive factory at Winterthur, this would also be of value.

Very truly yours,

DANIEL B. BRITT
Chief, Midwest Office
