MAY 1 1943
DIVISION OF RECORDS
AND IDENTIFICATION

Dear Mr. Henderson:

Since Layng of this office is at present engaged in studying the railway system of Italy for the purpose of making a report on the Italian railways, it would probably save duplication of work if Mr. Sadler would prepare the material on northern Italian railways on which he has been working, in the form of a rough draft, with such exhibits as he may have, and forward it to this office for incorporation in the general report on Italian railways.

Charles Baldwin in our New York office is following this system on information he has been able to develop on Italian railways, and both of these men would, of course, be given due credit when the final report is submitted.

Very truly yours,

Daniel B. Britt
DANIEL B. BRITT
Chief, Midwest Office
