Newark, N.J.

Re: George A. Hamilton

Dear Mr. Meyer:

Thank you very much for your letter of March 7  
and for the statement received from Mr. Hamilton.

Perhaps from available records that we may  
uncover some place we may be able to add some new things  
to this statement that Mr. Hamilton would be willing to  
embrace as his own by applying his signature.

Cordially yours,

G. Ross Henninger,  
Editor.

New York City

*acked.*

My dear Mr. Henninger:

I am inclosing a brief statement which I received from Mr. Hamilton. As you know, it is almost impossible to get very much from him in his present feeble condition as he is well advanced in years, somewhat past ninety.

I talked with his daughter but she, of course, is not familiar with his early associations with the Institute and has not been in any position to help materially.

I suggested to Mr. Hamilton that you might take this statement and perhaps add something to it and edit it, and then have it appear over his signature in the coming anniversary issue of ELECTRICAL ENGINEERING.

If you will have it rewritten I will be glad to take it down to him for his approval.

Very truly yours,

(E. B. Meyer)  
Chairman

Elizabeth N. J.  
June 20<sup>th</sup> 1931.

Mr. F. A. Norris  
Office Manager  
33 West 39<sup>th</sup> Street  
New York.

Dear Mr. Norris

Thank you for your letter of the 18<sup>th</sup>  
and for the report of the Board which  
accompanied it. I was glad to get  
both.

There has been but little change  
in my condition, am weaker if any-  
thing. The doctor comes to see me  
his regular two or three times a  
week. I take his pills and there

you are. I am afraid it will be  
a long time before I make my ap-  
pearance at head quarters. I often  
think of you all however.

With kindest regards to yourself  
and all

Sincerely Yours  
George A. Hamilton
