Dear Ms. Gutwein:

During your recent visit to Mexico you talked with Javier Castro from this Morelos Subsection. He mentioned our objective of becoming a full Section this year. We have collected signatures from almost all the members belonging to the subsection. I have made sure that at least 50 members have signed the petition. Many of them are still PM, but since we have sent their applications to become members, perhaps some of them will be at the time our petition is considered. I am sending you the originals, asking for your help so that this matter is included in the November meeting of the Board of Directors. Thank you very much for your help. If something comes up urgently, my telex No. is 173380 INIEME.

Yours Truly,

Dear Mark:

Please find enclosed the petition for the formation of a new IEEE Subsection which we propose to call **Morelos** Subsection of Mexico Section.

Some people who signed the petition didn't write their Membership grade and number due to the fact that they were recently enroled and have not received their number from HQ.

We are sure this petition will fulfill the IEEE approval and in the meantime we are working in the formation of the subsection committee and preparing the work program for 1987.

Dear Mark:

Please find enclosed the petition for the formation of a new IEEE Subsection which we propose to call Morelos Subsection of Mexico Section.

Some people who signed the petition didn't write their Membership grade and number due to the fact that they were recently enroled and have not received their number from HQ.

We are sure this petition will fulfill the IEEE approval and in the meantime we are working in the formation of the subsection committee and preparing the work program for 1987.

### **Section 2**

The territory of the Morelos Section, as approved by RAB and IEEE Mexico Council, includes the following

<b>Estate</b>	<b>Postal code range</b>

Dear Lauren:

Acapulco city is in Guerrero State. I am supposing that volunteers from this city will support members living in Guerrero State.

I reviewed Mexico's Zip codes and I found that for Guerrero's State Zip codes go from 39000 to 39900.

I am also copying it to other volunteers who have helped Rolando Palacios to see if they agree with this boundary and hopefully can email to you the list of the cities that will belong to this sub-section.

Best Regards

Francisco Martinez
