The cities that we have added subsequently are shown with a circle in red color and a squares in purple. The cities shown with square belong to the area called FATA. This is an area which has a separate administration for the purpose of Pakistan Government and has special meaning.

Enclosed is also a supporting letter No. IEEE/CM/99/998 dated January 28, 1999 from Pakistan Section, recommending the upgradation of Islamabad Section to a full Section.

Thanking you for wishing me a safe holiday but it was neither safe nor a holiday. Already no power for first half of the day in three out of 4 provinces of Pakistan. This did not really relate to Y2K. It was due to thick fog persisting for long in early hours. It wets insulators and electrical lines go out of service. There were minor Y2K problems and several faxes and telephones were not operated. I withheld this courier package which contained a lot of documents for other IEEE staff also for fear of Y2K and its consequences. I have today learnt that IEEE have closed down their EWH server hosting web page entities up to January 3, 2000 again for fear of Y2K. I hope your holiday was safe.

Best wishes
