

Region 3; R3; Southeastern USA  
R301 North Carolina Council

INTER-OFFICE LETTERS ONLY

DATE November 12, 1965

TO EDP, Coding, Student Branches, Editorial, Treasury and Accounting Departments

FROM Emily Sirjano

SUBJECT NORTH CAROLINA SECTION REGION 3

Please note the following actions taken by the IASA Executive Committee on November 3, 1965.

1. The following five Subsections of the North Carolina Section were elevated to full Section status:

Central  
Charlotte

Eastern  
Western

• Winston-Salem (formerly  
Northwestern)

2. The dissolution of the North Carolina Section was approved.

The EDP Department is requested to make the necessary changes in the computer records, prepare Section Record change cards for all members in these 5 new Sections and to advise those concerned of the changes established for these new Sections.

Plans are underway to have these five Sections operate jointly as a Council (this will be permitted under new Bylaws), and the funds and assets now held in the North Carolina Section treasury will be retained by the Council to cover expenses of distributing the single publication to all members of these five Sections, Joint Student Activities, etc.

- The name of this Subsection was changed from Northwestern to Winston-Salem simultaneously with the elevation of the Subsection to full Section status.

May 4, 1965

Mr. John I. Barron

Dear Mr. Barron:

We are pleased to advise you that the IEEE Executive Committee, at its April 14, 1965 meeting approved a request from the North Carolina Section for a change in status of the following Subsections within the North Carolina Section to Section status:

Central North Carolina  
Charlotte  
Eastern North Carolina  
Western North Carolina  
Winston-Salem (formerly Northwestern Carolina)

Appropriate action is being taken by Headquarters and our records duly changed to show full Section status for the above former Subsections of the North Carolina Section.

The IEEE Executive Committee deferred action on the request of the North Carolina Section for the formation of a District, which would include the above named Sections, pending review of the functions of Districted. An Ad Hoc Committee has been formed to study the question of Districts and we understand that no action will be taken on any further such requests until the IEEE Executive Committee has reviewed reports to be submitted by the Ad Hoc Committee.

Sincerely,

Emily Sirjane, Manager  
Membership Services

Dear Sirs:

The North Carolina Section approves the request for the formation of the Eastern North Carolina Section of the Institute of Electrical and Electronics Engineers as a member of the proposed North Carolina District.

This is a large and active Subsection covering both of the state's large engineering universities.

This proposed Section's territory includes areas of engineering interest which we hope they will be able to develop as Subsections.

No special drive was made to obtain a large number of signatures on their petition. All members were advised through meetings and through our publication of the proposal to form the North Carolina District and separate Sections. This was met with full approval without a single expression of opposition.

Yours truly,

John I. Barron  
Chairman

Our membership is wholeheartedly in favor of the changes as we have them proposed.

Attached are some itemized advantages of the change we have especially noted. There are some reasons so obvious that we have not included any detailed discussion of these.

We request this complete change, organization of the District and new Sections, to be effective July 1, 1965. This is a normal officer change time for us. Our proposal is to extend the Section officers term for six months to complete the changeover. New officers would be elected to serve a two year term. These would be installed January 1, 1966, and their term coincide with the term of the Regional officers.

The coordinated change will permit us to continue without interruption our Bulletin and Annual Symposium.

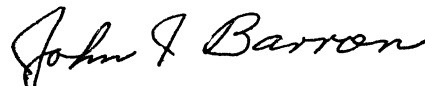

We have reviewed the question of financing the District organization. We believe that we have a sound plan to meet these needs.

Attached is the first draft we prepared for our Constitution and Bylaws. These give the basic outline of our proposed operation but do require modification and editing before adoption.

Further attachments as listed below are included to further support our position.

We appreciate your consideration of this proposal and solicit your support in our endeavor to move forward with IEEE.

Sincerely,

John I. Barron  
Chairman

Dear Sirs:

The North Carolina Section requests authority to reorganize forming the North Carolina District of the IEEE. Concurrently, each of the Subsections of the North Carolina Section request Section status as members of the North Carolina District.

This has been a carefully studied change by both the Subsections and the Section. We have discussed our plans with our Regional Director and many IEEE officers and leaders and are convinced that this arrangement will be in the best interest of our members and lead to better operation and development of the IEEE in our area.

Our present Section has over 1400 members and extends over 500 miles from end to end. This results in definite administrative problems and keeps us from having the close contact so desirable between a Section and its members. North Carolina has several distinct centers of engineering activity.

February 25, 1965 JIB:cc

Mr. Donald G. Fink  
General Manager - IEEE  
345 East 47th Street  
New York 17, New York

Dear Mr. Fink:

The North Carolina Section and its five subsections are planning to make a formal request to reorganize as a District and individual Sections. This is not a hasty decision, but one that has been studied for some time.

Our plans have been reviewed from time to time with our Regional Director and he has discussed them informally with the Section's Committee and others to help insure that we were planning wisely.

We propose to have a formal request with the necessary petitions to be presented by Dr. Weil, our Regional Director, next month. Dr. Weil suggested that we send you some of the information at this time for your review. Included is a first draft of a Constitution and Bylaws. We recognize that we have a number of items to clear up but we do hope we can make the overall change effective July 1, 1965.

We know the District organization has not yet been developed as we propose but feel that the IEEE was very far-sighted in including it in the overall structure of organization. We have found it very difficult to properly operate a section as large and spread out as ours. We know we are not representing our membership as well as we should. We value the statewide bonds and activities and do not wish to give

these up. Our engineering universities are concentrated in one area and we don't want to segregate them or be isolated from them.

We are confident that this proposed organization will improve our operation, increase interest and provide the way for further growth of the IEEE in North Carolina.

We solicit your support for this plan.

Yours truly,

John I. Barron  
Chairman

February 8, 1965

Dr. Joseph Weil  
College of Engineering  
University of Florida  
Gainesville, Florida

Dear Dr. Weil:

The North Carolina Section and its five Subsections have carefully reviewed the Charlotte Subsection's study and their request of November 10, 1964 to form the Charlotte Section of the IEEE.

We did not want to take any action that would not be in the best interests of the IEEE, our Section and its members.

A special committee was appointed last fall to review the situation, check on the sentiment of our members, and recommend a course of action for the Section.

This committee made their report to the Section Executive Committee on January 15, 1965 and with minor rewording it was unanimously accepted and approved.

A preliminary Constitution and Bylaws were prepared to help insure a better understanding of our proposed organization and method of operation.

I feel that we have almost unanimous support of our interested members in this proposal for reorganization.

The North Carolina Section now requests your support for the formation of the North Carolina District of the IEEE.

Each of our Subsections are requesting Section status and membership within the North Carolina District.

A formal request and petitions for the formation of the Sections are being prepared and will be forwarded for presentation at the March meeting of the Sections Committee.

Attached are copies of the committee report and some of the related material which may help you evaluate our position and the progress we have made to develop this plan.

Sincerely,

John I. Barron  
Chairman

Charlotte, North Carolina  
December 1, 1964

To All Executive Committee Members  
North Carolina Section, I.E.E.E.

The following Ad-Hoc Committee has been appointed:

Herbert W. Augustadt, Chairman  
Fred E. Nimmcke  
Charles J. Wylie  
John I. Barron

Norman R. Bell  
E. L. (Ted) Getchell  
C. Jeff Reece

This committee will review the Charlotte Subsection's request for Section status, investigate the advisability of reorganization with a North Carolina District and multiple Sections and prepare recommendations for a course of action for our Section.

This committee will prepare a report for the January 15, 1965 Executive Committee meeting.

The committee has a lot of work to prepare this report in the time allotted. Any suggestions and help from the other members of the Executive Committee and our membership at large will be appreciated.

We have two other new committees operating. William D. Stevenson is Chairman of the Headquarters Nominations Committee. Their responsibility is to make recommendations to Headquarters for membership on the Institute's various administrative and technical committees.

N. Craig McCorkle is Chairman of our Prize Paper Contest. He is still looking for entries and we all want this contest to go over big.

In keeping with our Bylaws, these men have been asked to join our Executive Committee.

Also in line with our Bylaws, our Nominating Committee consists of Charles R. Vail, Chairman, Cecil E. Bertie, and Paul S. Colby. The reorganization proposal may change our plans but we should plan for continued operation.

TO: All Members Executive Committee

The Charlotte Subsection undertook a detailed investigation to determine the relative merits for changing to Section status. Attached is a copy of their committee report which was reviewed by their executive committee and has led to their decision to work toward full Section status.

Before any open action was taken, their chairman and representative called on me to discuss their proposal. I appreciate this and their expression that this was a positive step for growth and not a result of dissatisfaction with our N. C. Section or any of its officers.

I felt it advisable to check with headquarters concerning the proposed change. Our regional director, Dr. Weil, was on a trip so I discussed the matter first with Donald Fink, General Manager and then with W. E. Peterson, Vice President and Chairman of the Sections Committee. Later I reached Dr. Weil. All of these gentlemen recommended section status for any group meeting the requirements. All Subsections in the N. C. Section do meet these requirements.

The chief disadvantage recognized by most of our members in going to individual sections is the loss of statewide bonds and the ability to sponsor symposia, publications and other statewide activities.

I have proposed therefore that we consider organizing a North Carolina District to retain these bonds and activities. I questioned the practicality of this with Messers. Weil, Peterson and Fink. It was reviewed by them last week at the meeting in Chicago. Their recommendation is that we proceed with this plan.

This is more than a name change - it can and should reflect definite growth. Each new Section would gain all the advantages outlined in the Charlotte study and the disadvantages would be offset by the formation of a District.

The District organization would eliminate many of the recognized problems we now have. As a District we would not be required to have a set number of meetings but could better adjust to a smaller number of well planned and supported meetings.

The District officers would not have as many administrative duties so would have more time to offer for Statewide activities.

The smaller sections would offer more opportunity to develop officers and leaders and insure better recognition of capable men.

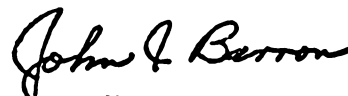

The District would not receive any direct financing from Headquarters. I do not feel that a North Carolina District, IEEE, would have trouble financially. We do not aim to make money. We have proved we can and will back statewide meetings such as our Symposium and our excellent Bulletin and can continue to make these self supporting.

As I see it, we have at least three choices.

- (1) Retain our present organization, disapproving any Subsections' petition to withdraw and form separate sections.
- (2) Retain the North Carolina Section with whatever Subsection or Subsections wish to remain and approving the withdrawal of any Subsection or Subsections which wish to reorganize as sections.
- (3) Reorganize, as outlined above, with a District and as many individual Sections as necessary to best divide our area.

Will each of you as members of our governing Executive Committee consider this, review the IEEE Bylaws in the Sections Manual, and be prepared to discuss this proposal at our next meeting scheduled for 10 a.m., November 21, 1964. This is a big step, we must face it squarely and plan wisely to insure that we do move ahead.

Yours truly,

  
John I. Barron

Mr. George W. Bailey  
Executive Secretary  
Institute of Radio Engineers  
1 E. 79th Street  
New York 21, N.Y.

Dear Mr. Bailey:

This is to present to the National Executive Committee of the Institute a petition to form a sub-section within the North-Carolina-Virginia Section.

As required by the Section Manual, Sec. 3.1.9.11, I am enclosing:

1. A copy of the petition
2. A copy of the minutes of the Executive Committee meeting, North-Carolina-Virginia Section, in which the petition was approved.
3. A copy of a letter to Mr. Warren A. Welsh, Chairman of the Provisional Piedmont Sub-Section.

The Executive Committee of the Virginia-North Carolina Section voted to approve the petition provided the following counties of North Carolina be included:

Ashe Watauga Wilkes Alleghany Surry Stokes Yadkin  
Forsyth Davie Davidson Rockingham Guilford Randolph  
Caswell Alamance Person

and that the name of the sub-section shall be "Piedmont."  
Approval for the establishment of this sub-section is requested.

For the information of the National Executive Committee, the Virginia-North Carolina Section Executive Committee is considering the adoption of a plan for the division of the section into sub-sections, in the hopes of stimulating activity in the various kernels of section population, and it is largely with this problem that the enclosed copy of the minutes deals. Establishment of the Piedmont Sub-Section is a first step in this direction but is not dependent on the adoption by the Section of any particular sub-section plan.

Yours very truly,

*James C. Mace*

August 5, 1955

Mr. Warren A. Welsh  
Western Electric Company  
Burlington, North Carolina

Dear Sir:

I have received your letter of August 2, and I am glad that you feel that the committee's recommendation of additional counties will be acceptable. Enclosed is a copy of the subsections by counties which will be proposed at a later date. Dr. Hoadley is drawing up a final plan for the operation of the subsections. I am enclosing this copy to give you an idea of what the final copy will be like when he submits it for publication. The proposed plan for subsection operation will include three subsections in Virginia as well. You should note here that the plan merely establishes boundaries for subsections which we hope will be adhered to in the formation of new subsections.

As far as the operation of the subsections is concerned, the proposed plan for subsection operation will read something as follows:

1. Subsections shall be established only by the action of the executive committee of the section upon receipt of a petition from a local group in accordance with the procedure set forth in the section manual.
2. Subsection territories shall conform to the boundaries set by the section Executive Committee.
  - (a) The territory of the section shall be divided into potential subsection areas. The total of these subsection areas shall be the whole area of the section, so that no area is excluded from the subsection plan. (The proposed boundaries are shown in the attached map.)
  - (b) Groups of members near a subsection boundary may petition the Executive Committee for a change of the boundary to meet their convenience.

# THE INSTITUTE OF RADIO ENGINEERS

INCORPORATED

SECTION CORRESPONDENCE

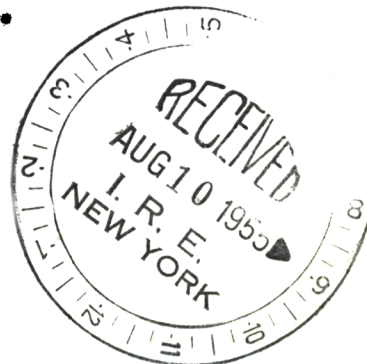

PLEASE ADDRESS  
REPLY TO

Mr. Warren A. Welsh - Page 2

8/5/55

3. Subsection meetings shall be the responsibility of the subsection officers.
4. The section shall hold at least one meeting per year in the territory of each subsection. These section meetings shall be the responsibility of the Section Executive Committee.
5. The section shall contribute 50 cents per subsection member to each subsection to help defray the cost of subsection operation. In addition, the subsection shall receive any other funds which national headquarters may assign to the section for subsection use. (Currently, this is \$10 per meeting up to five meetings per subsection per year.)
6. Notice of subsection meetings shall be mailed to all members of the IRE residing in the subsection area. Other members of the section may receive these notices upon their request and upon payment of 50 cents per year to the subsection to defray the cost of mailing the notices, but this provision shall be void if it violates the policy of the IRE headquarters.
7. A financial report shall be made by each subsection to the section treasurer as soon after December 31st as possible. This shall be similar in nature to the report which the section treasurer must make to national headquarters. It shall not contain the details of the cost of dinner meetings, but shall list only the net gain or loss on each dinner meeting.

The proposed plan must be submitted to the Section in the form of a proposed change of by-laws. However, if the Piedmont Sub-Section is willing to include the extra counties suggested by the Executive Committee, there should be no hindrance to the formation and acceptance of that sub-section.

I believe that your suggestion of having the areas section meeting September 30 at the Burlington plant of Western Electric is a good one. I have not consulted the other members of the Executive Committee on this, but I feel that they will agree. The complete subsection proposal as drawn up by Dr. Hoadley will be submitted to section members just as soon as possible.

Yours very truly,

James C. Mace, Chairman  
Virginia-North Carolina  
Section IRE

## Minutes of Executive Committee Meeting Va.-N.C. Section IRE

July 25, 1955 Greensboro, N.C.

Members present: Mace, Minor, Hoadley

Section Chairman, J.C. Mace, called the meeting to order at 10:15 am, July 25, 1955.

The first item of business was discussion of the matter of setting up tentative boundaries for sub-sections, the method of presenting the proposal to the Section, a discussion on the acceptance of the petition for a Sub-Section by the Winston-Salem group.

The sub-section plan submitted by Hoadley to the Committee March 29, 1955, was discussed point by point, with the following action taken by the Committee.

- Item 1. Approved as it stands by the committee.
- Item 2. Approved as written by the committee.
- Item 3. Approved as amended. This item now reads:  
"Subsection meetings shall be the responsibility of the subsection officers.
- Item 4. Amended to read:  
The section shall hold at least one meeting per year in the territory of each subsection. These section meetings shall be the responsibility of the Section Executive Committee.
- Item 5. Approved as written.
- Item 6. " " "
- Item 7. " " "

The changes in boundaries and names of subsections are in the hands of the three committee members present, and it was agreed that the proposed plan for subsection organization and operation be submitted to the membership at the first fall meeting, through the medium of the meeting notice.

Minutes of Executive Committee Meeting - Page 2

A motion made by Hoadley and seconded by Minor that the petition of the Piedmont Sub-Section be granted, as modified according to the proposed sub-section plan, was passed. The Secretary was authorized to notify National Headquarters of the action so that the sub-section may be established at the first fall meeting.

The Secretary was instructed to send notice of this action immediately to the Piedmont group.

It was agreed that Mace will send Hoadley Virginia maps, that Hoadley will contrive a duplicateable Va.-N.C. map showing proposed boundaries for sub-sections.

In order to save money on meeting notices it was resolved to instruct the Secretary that in the future he shall not send stamped reservation post cards with meeting notices, but instead will mimeograph at the bottom of section meeting notices a tear-off reservation section. The member will then send the reservation with his own postage.

A discussion of the inconvenience of the present date of installation of new officers resulted in the proposal by Hoadley that they be installed July 1. It was agreed that Hoadley draw up this proposal and that it be submitted to the membership at the first section meeting as a Change-of-By Laws.

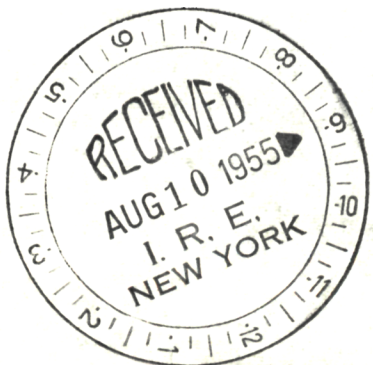

The following section meeting schedule was adopted for the following year:

September 30  
October 24  
December 9  
January 27  
March 3  
May 5

Greensboro - business meeting  
Charlottesville

Meeting Secretary

Subject to Corrections and Approval

Greensboro, N. C.  
March 11, 1955

Mr. Chairman  
Executive Committee  
Institute of Radio Engineers  
North Carolina-Virginia Section

Dear Sir:

We the undersigned request the establishment of a subsection of the NORTH CAROLINA-VIRGINIA SECTION of the INSTITUTE OF RADIO ENGINEERS. The subsection to be known as the PICKMONT subsection of the I.R.E.

It is the desire of the undersigned that the proposed subsection shall include the counties in North Carolina listed below:

ALAMANCE  
FORSYTH  
GUILFORD

Within sixty days after receipt of approval from the section the subsection will hold an organizational meeting. At that time, a proposed set of By-Laws will be presented and when adopted, will be forwarded to the executive committee of the North Carolina-Virginia section for approval. The subsection will be held responsible for upholding all laws, rules, and regulations of the section insofar as they pertain to the subsection.

This constitutes a valid petition for the adoption of an I.R.E. subsection in the North Carolina-Virginia section and is submitted according to rules governing such petitions.

September 6, 1946.

Prof. Lawrence R. Quarles, Chairman  
North Carolina-Virginia Section of IRE,  
c/o University of Virginia,  
Department of Engineering,  
Charlottesville, Va.

Dear Professor Quarles:

I have just learned of your election as Chairman of the North Carolina-Virginia Section of the Institute of Radio Engineers. This makes you an important field representative and contact man for the Institute. As such, we hope you will be able to acquaint yourself thoroughly with the problems which arise in the Sections and suggest to the National Headquarters and the Board of Directors ways and means by which we can improve our service to the members.

I hope you will also help us to interpret to the members the reasons for occasional policies which are generally useful but with which they may individually disagree. If you need information for this purpose, be sure to write to headquarters. A professional society finds its greatest service in the direct contact with the members which can only be accomplished through the Sections. Your function will also be to make your Section an effective engineering organization.

We shall be glad to know of the special interests of your members and of those who are well qualified for committee assignments as the information will be useful to the Institute in the future. We also hope you will make a special effort through your committee to see that professional radio engineers are transferred to the proper grade of membership.

Congratulations on this honor that has come to you and with best wishes for a successful year.

Sincerely yours,

F. B. Llewellyn  
President

September 6, 1946.

Mr. John F. Orth, Secretary-Treasurer  
North Carolina-Virginia Section of IHE,  
c/o 4101 Fort Avenue,  
Lynchburg, Va.

Dear Mr. Orth :

I note that you have been elected Secretary-Treasurer of the North Carolina-Virginia Section for the current year. I presume that Professor Breaseale has acquainted you with the details of your duties and has placed in your hands the supplies you will need in your new office.

As you probably know, the income of your Section is based upon the number of members residing in it and the number of meetings held each year. It is, accordingly, necessary that you forward to this office a notice of each meeting held. Under separate cover, we are forwarding a supply of meeting report forms.

If there are any details of your duties upon which you desire more information than you have been able to obtain from Professor Breaseale, please do not hesitate to call on us for it. It is our desire to cooperate to as large an extent as possible with you in the carrying out of your duties.

You may be sure that I am looking forward to a pleasant correspondence with you during the coming year.

Very truly yours,

G. W. Bailey  
Executive Secretary

Prof. Cornelius Brennecke, Vice Chairman  
North Carolina-Virginia Section of IRE,  
c/o Dept. of Electrical Engineering,  
N. Carolina State College,  
Raleigh, N. C.

Dear Professor Brennecke:

I am glad to hear that you have been elected to the office of Vice Chairman of the North Carolina-Virginia Section.

One of the specific purposes for which the Headquarters Office of the Institute is organized is to assist you in every way possible to carry out your duties in your new position.

Very truly yours,

G. W. Bailey  
Executive Secretary

FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON 25, D. C.

ADDRESS ALL COMMUNICATIONS  
TO THE SECRETARY

July 13, 1946

Mr. George W. Bailey  
Executive Secretary  
Institute of Radio Engineers  
330 West 42nd Street  
New York, N. Y.

Dear Mr. Bailey:

Receipt is acknowledged of a copy of your letter of June 25, 1946 addressed to Professor William H. Breazeale of the University of Virginia with regard to the territory which will make up his Section.

As Secretary-Treasurer of the Washington Section, I wish to advise that it is perfectly agreeable that all counties in the State of Virginia with the exceptions of:

Stafford  
Prince William  
Loudoun  
Fauquier  
Fairfax  
Arlington

be assigned to the Section to be headed by Professor Breazeale.

Very truly yours,

*G. P. Adair*  
G. P. Adair  
Secretary-Treasurer  
Washington Section, I.R.E.

New York, N. Y.

Dear Mr. Bailey:

Re. Territory of the North Carolina -  
Virginia Section.

I have your letter of June 25th advising that you are setting up your Adressograph records to include in this Section all of North Carolina and Virginia except the following counties in Virginia -

Stafford ✓  
Prince William ✓  
Loudoun ✓  
Fauquier ✓  
Fairfax ✓  
Arlington. ✓

We agree that this is a satisfactory division.

We are planning to hold a mail ballot for officers at an early date and shall appreciate receiving the list of members in this section in order that we can send each a ballot.

Very sincerely yours,

*William McBreazeal*

Dear Professor Breazeale:

Thank you for your letter of May 8 and the petition for the formation of a North Carolina-Virginia Section of the Institute of Radio Engineers. The signatures were checked and found to be in good order and thus the petition will be presented for action at the meeting of the Board of Directors to be held on June 5.

Very truly yours,

George W. Bailey  
Executive Secretary

May 8, 1946

Mr. George W. Bailey, Executive Secretary  
Institute of Radio Engineers  
330 West 42nd Street  
New York 18, New York

Dear Mr. Bailey:

As you remember a committee was formed in Richmond on April 13th to lay the groundwork for the formation of an I.R.E. Section to include the members in North Carolina and Virginia except those living within fifty miles of Washington, D. C. Members of this committee are R. N. Eubank of Richmond, Virginia, Chairman, W. S. Carley of Raleigh, North Carolina and W. M. Breazeale.

54 The committee has now secured 52 signatures of Associates, Members and Senior Members believed to be in good standing to a petition asking the Board of Directors to grant us a section. We shall greatly appreciate your bringing this petition to the attention of the Board and hope that we shall learn of early and favorable action on their part.

Actually, the petition consists of 20 signatures gathered at the Richmond Meeting on April 13th and 32 additional signatures obtained by mail. Mr. C. G. Brennecke's name was placed on the Richmond sheet by Mr. Carley acting as proxy and is duplicated in the mail petitions.

One of the chief reasons for forming this Section is to provide an organization which will hold meetings in various parts of the two States. In this way nearly all members can attend one or more meetings without having to travel inconvenient distances. In view of this we think it more appropriate that the Section be named after the States rather than any one city.

A typewritten list of the petition signers is attached.

Very sincerely yours,

*William M. Breazeale*

Mr. George K. Bailey

~~Dr. F. B. Llewellyn, President  
Institute of Radio Engineers  
c/o Bell Telephone Laboratories  
463 West Street  
New York 14, New York~~

Dear Dr. Llewellyn:

This is partly in answer to your letter of March 13 and partly an interim report on the progress towards forming a North Carolina - Virginia Section of the IRE.

A meeting was held last Saturday in Richmond in conjunction with the ARRL Meeting and a start was made toward forming the section. Mr. George K. Bailey was present and addressed the group. The enclosed xeroxograph sheet describes the results of the meeting and indicates what we will try to do next.

I hope that we will have some 40 or 50 signatures to the petition within a few weeks so that we can request the IRE Board of Directors to grant us a section.

The movement, so far, has attracted considerable interest among radio and electronic people here and in North Carolina. The rate at which they apply for membership in the Institute seems to be limited, in part at least, by the rate at which we can obtain application blanks:

*Q.  
dearly  
we hope  
supplied*

I was interested to learn that a special committee has been appointed to settle the question of how to handle the New York Meeting. I suspect that one reason so many people tried to crowd into the technical sessions, which were not supposed to draw the crowds, is because there are so many physicists and allied scientists who are now members of the IRE. These people are not as interested in systems, radio circuits and operation as they are in fundamental scientific developments. Most of the applications which I have signed in the past few months were from people who are distinctly not operating radio engineers.

If our section is successfully established, I hope you can visit us while you are President of the Institute.

Sincerely,

*WMB*  
William M. Breazeale

UNIVERSITY OF VIRGINIA  
DEPARTMENT OF ENGINEERING  
Charlottesville

April 18, 1946

Dear Fellow Member of the IRE:

Thank you for returning the IRE Section questionnaire. To date we have received nearly fifty favorable replies. On the basis of these replies plus the results of a meeting described below it was decided to go ahead with efforts to form a North Carolina - Virginia section of the IRE.

The ARRL gathering in Richmond on April 13 brought together a number of IRE members. After the ARRL technical session, Mr. R. N. Eubank of Richmond called a meeting of IRE members and other interested people to discuss the formation of an IRE section. Mr. George K. Bailey, Executive Secretary of the IRE, addressed the gathering and then several people spoke from the floor. Mr. Bailey assured the group that the Institute Board of Directors would be glad to see a section formed and the sentiment of the others who spoke was favorable toward such a procedure. It was also agreed that meetings should be held in the various parts of the territory covered by the section.

The question was raised as to whether or not the proposed section should include both States. The consensus of the people from North Carolina who spoke was that they would like the section to include both States until the time comes when there are enough IRE members to form a strong North Carolina section.

The Chairman announced that a petition had been prepared and requested all IRE members present who wished to support the proposed section to sign. Mr. L. R. Quarles moved that a small committee be appointed to secure more signatures to the petition if same were needed, to forward the petition to the Board of Directors and, if the petition is approved, to lay plans for an organizational meeting. A committee consisting of R. N. Eubank, Chairman, W. S. Carley of North Carolina State College in Raleigh, and W. M. Breazeale was appointed.

Eighteen signatures were obtained on the petition after the meeting. Although only twenty-five are required the sponsors would like to have nearly double this many before sending the petition to the Institute Board of Directors. Hence, it will be greatly appreciated if you will sign the copy of the petition which is attached and return it in the enclosed envelope.

Very sincerely yours,

*William M. Breazeale*

For the Committee.

March 20, 1946  
(Dict. 3/19/46)

Mr. R. N. Eubank  
1227 Windsor Avenue  
Bellevue  
Richmond 22, Va.

Dear Mr. Eubank:

In reply to your letter received today, with reference to the possible formation of a Virginia Section of the Institute, we submit the following information:

The first step in the formation of a Section is the determination of the boundary of the Section, which is always expressed in terms of counties.

The second step should be a discussion with the officers of the Section which now contains the counties which you wish to transfer to the Virginia Section. In this case, it would be the Washington Section officers.

If the Washington Section officers agree to your proposal, you have no further difficulty with reference to territory. If they do not agree with your proposal, the dispute would have to go to the Board of Directors of the Institute. They would probably order a poll of the members of the Institute in the disputed territory as to the preference of those members for remaining in the Washington Section or forming a new Virginia Section. A majority of votes would settle the question.

The third step to be taken after the question of boundary has been decided is to write out a petition stating the boundaries for the Section. This petition must be signed by not fewer than 25 members as specified in Section 38 of the Constitution.

Your petition is then presented to the next meeting of the Executive Committee which would probably recommend the formation of a new Section to the Board of Directors, who would act upon it at their meeting the next day.

The fourth step would be the careful consideration of the Section Manual and the election of officers in accordance with the Manual. You might note at this time that the Chairman of the new Section must be of Member grade or higher. An Associate is not eligible to be Chairman.

Mr. R. N. Eubank

March 20, 1946

-2-

When the new Section has been authorized by the Board of Directors and your officers elected in accordance with the Section Constitution, you are then eligible for a rebate to the Section of \$0.75 per member per year for every member up to 700 and \$0.90 per year for all members over 700. In addition, the Section is entitled to a rebate of \$10.00 per meeting per year up to a maximum of ten meetings per year.

In accordance with your request, we are forwarding under separate cover 50 application blanks.

We also note change in your mail address from 311 E. Cary Street to 1227 Windsor Avenue, Bellevue, Richmond 22, Virginia.

I hope that you will have a very successful meeting. I will try to be there to hear this fellow Bailey who I understand will be your guest!

Very truly yours,

George W. Bailey  
Executive Secretary

scription to the PROCEEDINGS, a monthly publication devoted to technical articles and news of interest to men in the radio and allied engineering fields. The Institute sponsors conventions and local Section meetings during the year, which are addressed by outstanding men in the radio profession on new and interesting scientific developments.

Our Board of Directors has waived the payment of another entrance fee in the case of former members applying for readmission during the current year. Under the circumstances, you can have your membership reinstated by paying the dues in arrears if a continuous membership is desired, or by paying only the current-year dues. You will find the dues for the various grades listed in the enclosures.

Your attention is called to the fact that, for purposes of Article II, Section 1-d, of the Institute's constitution, such resumption of membership shall not constitute maintenance of continuous membership so far as voting privileges of Associates of record on March 1, 1939, are concerned.

By sending us the remittance with your filled-out readmission blank, the mailing of the PROCEEDINGS to you will be resumed promptly.

We hope we shall have an early opportunity to add your name to the growing roster of the Institute, which now includes more than 12,000 members.

Very truly yours,

W. B. Cowilich  
Assistant Secretary

V-Mail service provides a most rapid means of communication. If addressed to a place where photographing service is not available the original letter will be dispatched by the most expeditious means.

### INSTRUCTIONS

- (1) Write the entire message plainly on the other side within marginal lines.
- (2) Print the name and address in the two spaces provided. Addresses of members of the Armed Forces should show full name, complete military or naval address, including grade or rank, serial number, unit to which assigned or attached and army post office in care of the appropriate postmaster or appropriate fleet post office.
- (3) Fold, seal, and deposit in any post office letter drop or street letter box.
- (4) Enclosures must not be placed in this envelope.
- (5) V-Mail letters may be sent free of postage by members of the Armed Forces. When sent by others postage must be prepaid at domestic rates (3c ordinary mail, 6c if domestic air mail service is desired when mailed in the U. S.)

June 12, 1946

Professor William M. Breazeale  
University of Virginia  
Charlottesville, Va.

Dear Professor Breazeale:

I take pleasure in informing you that at the meeting of the Board of Directors of the Institute on June 5, 1946 the petition for the establishment of a North Carolina-Virginia Section of the Institute was approved.

I am also glad to state that at the last meeting of the Executive Committee it was voted to advance \$50 to new Sections as soon as their establishment was approved by the Board of Directors. Five meetings at \$10 per meeting would be credited against the \$50 advance. We are therefore sending you a check for \$50 on account, which we hope you will find useful.

It will now be necessary for us to set up the territory of your Section and tab our Addressograph stencils in order that a card record of the members residing in your Section can be forwarded to you.

We are forwarding under separate cover three copies of our Section Manual which outlines recommended procedures for the election of officers, appointment of committees, and other Section matters. The three copies are intended for use of the Chairman, Vice-Chairman, and Secretary-Treasurer of your Section when they are elected. As soon as your permanent officers have been elected, we should like to have their names and addresses for our records and for the listing of your Section in the PROCEEDINGS.

Your attention is called to Sections 38 through 45 on page 4 of the attached copy of our Constitution and Bylaws.

A supply of Section material, including stationery, meeting-notice signs, and application blanks is also going forward to you.

A careful reading of the Manual will provide you with many answers to questions occurring to you and to the new officers of your Section relative to organizing and operating the North Carolina-Virginia Section. However, I shall be glad to furnish information on any other points that may occur to you.

I take this opportunity to wish you success and assure you that we shall always be glad to assist in any way possible.

Very truly yours,

George W. Bailey

April 3, 1946

Mr. R. N. Eubank  
1227 Windsor Avenue  
Richmond, Virginia

Dear Bob:

Thanks for your letter of March 31 with the map of the proposed counties for the new Section which I presume you will call the "Richmond Section", as it is customary to use city names for Sections.

Glad to hear plans for the big party on April 13 are going along well. I expect to drive down if it is a good day. I would start early, about seven or eight o'clock, and ought to be in Richmond by ten or eleven. Please let me know where you would like to have me go if I come in by automobile.

Also, please advise me where I should go if I come in by train. I have not yet looked up the trains and have no timetable available here in New York City, but I will plan to take as early a train as possible out of Washington. You might continue to address me at 1530 P Street, N. W. in Washington, as I am there regularly on Monday and Friday.

Very truly yours,

George W. Bailey  
Executive Secretary

Mar - 31 - 1946.

Dear Mr. Bailey -

Many thanks for the very helpful data on the I.R.E. meeting. I received the package of applications and your letter with organization data.

We plan on including counties in Virginia as far north as Fredericksburg - west to include Roanoke and south to Virginia line. This should not conflict with any present section territory. I think Washington section will have no ground for objecting. We leave the western counties as they are as close to Cincinnati section as they are to us. We certainly don't want to get into other's territory but are trying to pick territory where no section serves.

Hamfest seems to be going nicely. Have over fifty reservations with two weeks to go. It will be a good place to get some reactions for Board meeting, as following clubs have reservations. Bluefield w/la Charlotte N.C - Norfolk - Washington - Staunton - Raleigh - Newport News - Lynchburg - Petersburg - Richmond.

Won't bother you with details but wanted you to have map of proposed I.R.E. section.

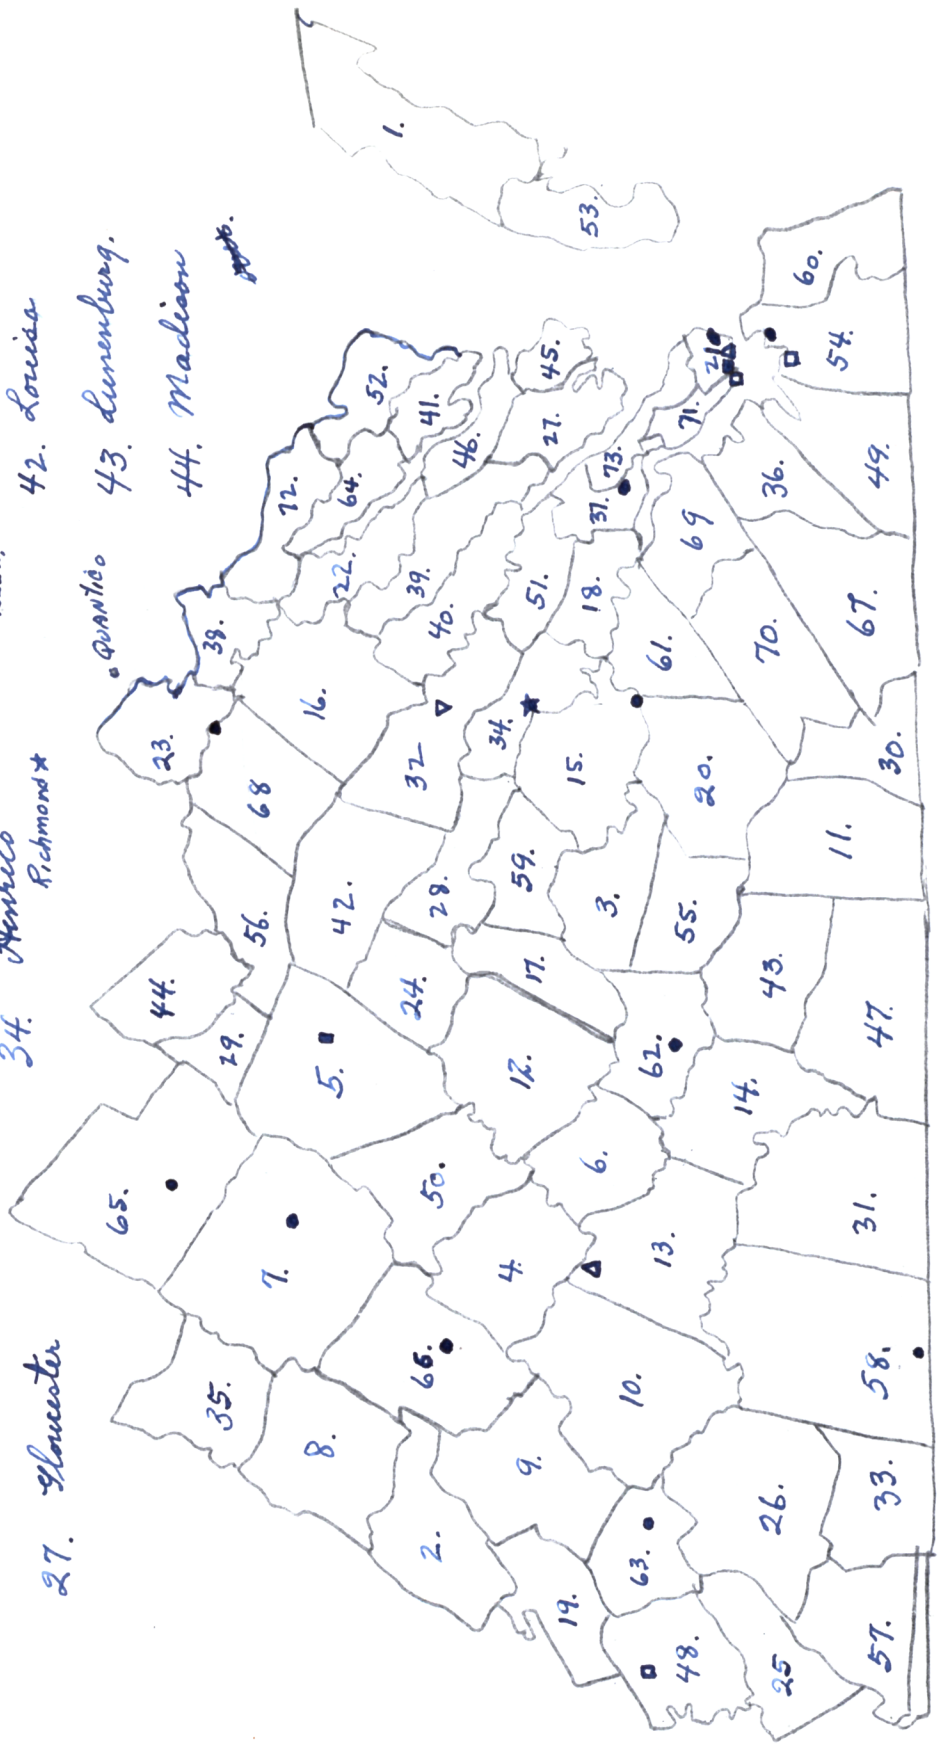

Very truly yours  
R. N. Eubank 3WS.

March 27, 1946

Mr. R. N. Eubank  
1227 Windsor Avenue  
Richmond, Va.

Dear Mr. Eubank:

In reply to your letter of March 19 with reference to the formation of an I.R.E. Section in Virginia, you asked for names and addresses of members but did not specify the territory you wished to cover. At the present time, as the result of the heavy influx of membership dues during the first three months of 1946, our Addressograph Department is in the process of transferring thousands of stencils and cutting new expiration dates on them. We are therefore unable to prepare a complete list of members in any area at this time. However, we have on hand a strip list of members as of December 31, 1945. We have picked out all members residing in the state of Virginia and enclose the list. These members belong to the Washington Section at the present time.

To obtain the names of new members since December, 1945, we suggest you check through the lists in the Advertising Section of the PROCEEDINGS each month, under the heading "Membership".

We sincerely regret our inability to run off a complete up-to-date list for you from our addressograph stencils at the present time, but hope that the enclosed list will serve your purpose.

In answer to the postscript in your letter, we hope to have the new Yearbook ready for distribution in June.

Very truly yours,

George W. Bailey  
Executive Secretary

Dear Sir:

As we are planning formation of a Virginia section of Institute, would you be kind enough to send names, addresses, grades of membership to help us on April 13 meeting in Richmond.

This will enable us to get invitations to them, and as I have received no recent year book - I will need this.

Executive Secretary Bailey will attend.

Thanking you

Very truly yours

R. N. Eubank  
M-10918 (1929)

P.S.

When will new year book come out.?
