

# IEEE publications bulletin

This Bulletin is the official announcement vehicle for IEEE publications, and information and educational services. Its purpose is to list, as they become available, all conference records, standards, special issues of Transactions and Journals, and other nonperiodic publications that may be purchased from IEEE Service Center.

### IEEE Journals on Microfilm comprise the world's major archive on modern electrical/electronics engineering.

IEEE Journals on Microfilm comprise an Information System that provides quick access—for viewing or printout—to the fundamental literature of modern electrical and electronics engineering. Both backfiles and updates are available on 16 mm or 35 mm positive or negative film, in cartridges or reels. All film is processed in accordance with archival standards as set by the National Bureau of Standards.

**Backfiles:** Date from 1884 through 1975 and include all periodicals of the IEEE's predecessor societies—The Institute of Radio Engineers and The American Institute of Electrical Engineers. Purchasers of the complete backfiles of all of the *IEEE Transactions*

(1951–1975) are entitled to sizable discounts on the sum of the individual *Transactions* prices.

**Annual Updates:** Include all IEEE periodicals published since January 1, 1976, on a yearly basis. Purchasers of all *IEEE Transactions* on microfilm for a single year receive sizable discounts under the total of the individual *Transactions* prices. They also receive a free copy of the annual combined INDEX TO IEEE PUBLICATIONS for that year.

**Available in June, 1978:** Microfilmed 1977 issues of all IEEE periodicals.

**Further Details:** For complete details and price list, ask for catalog No. F-15 Rev. 4/78. Send your request to: IEEE Service Center, Microfilm Services, 445 Hoes Lane, Piscataway, NJ 08854.
