**RE:** Affinity Groups

As you know, IEEE provided for the establishment of Affinity Groups within the RAB structure, in 1998. As the sponsor of several consultants' networks that currently exist in the Sections and Councils of IEEE, the Chair of the Coordinating Committee of the Alliance of IEEE Consultants' Networks contacted the networks in December for the information that is needed to establish them as Affinity Groups. I am including the information received thus far. Some were not able to provide total information (mainly member numbers) within the short time frame stipulated. Therefore, one should not assume that people listed are not members if no member numbers are shown. We expect more information to trickle in this month.

Please let me know if there is any further information needed about these groups.
